## What is the process?

The Premier of Ontario informs the Lieutenant Governor of Ontario that he or she would like to call an election. The Chief Electoral Officer of Ontario then prepares the writs of election. The Lieutenant Governor signs the writs, which starts an election.

During a general election, people can vote for a local candidate in their electoral district. The candidate who wins the most votes in each electoral district becomes its Member of Provincial Parliament (MPP). The political party with the most elected MPPs usually forms the new provincial government.

When all MPPs meet in the Legislative Assembly of Ontario, they make the laws that govern the province.

In between general elections, a by-election can be held to replace an MPP who has left the Legislative Assembly before the end of a term. A by-election is held only in the electoral district the MPP represented and only electors who reside in that electoral district can vote.
